

Field Fence(Grassland Fence)

Field Fence(Grassland Fence)is made of hot-dipped zinc coated steel wire, offer high strength and tensile strength, provide safety fencing against fierce striking of cattle, horse or goats. Knotted Wire Mesh Fences make an ideal fencing material for grasslands husbandry

Grassland fence we offer have innovative and firm structure, flat surface, uniform opening and good integration. grassland fence offers good flexibility; good pressure resistance, corrosion resistance and weather resistance properties and can serve for a very long time. Even the cut pieces will not deform under pressure. It has excellent corrosion resistance and anti-oxidizing property. Unlike the welded wire mesh fences with the welding spots getting easily broken, our grassland fence are firm forever once installed and make the best materials for protecting grassland, forestry, highway and environments.

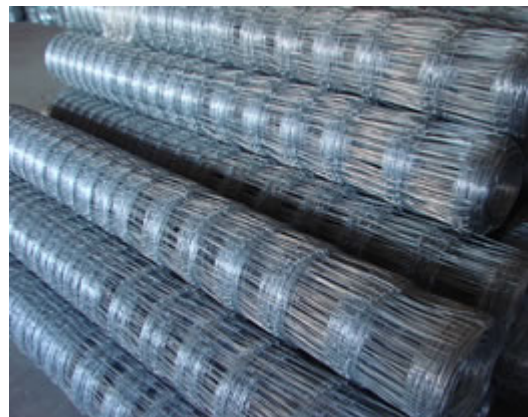

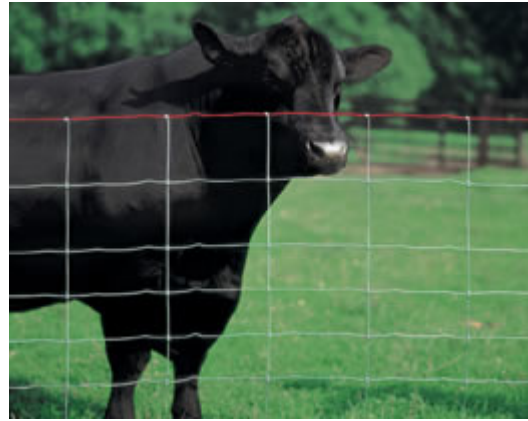

Design Advantages:

Hinge Joint: Prevents the deformation when animals lean on it.

Tension Curves: Make the fence more elastic and resistant

Prevents Wounds: Protect the animal and avoid infections.
