

## Welded Mesh Roll

**Material:** Mainly low carbon steel wire mesh, stainless steel mesh, etc.

**Features:** Welded wire mesh is firm and durable, so it can provide long-term use. Welded wire mesh roll has good corrosion resistance, acid resistance and alkali resistance, anti-aging, anti oxidation, weather-proof, sunlight resistance, etc.

**Application:**

Welded wire mesh is widely used in industry, agriculture, construction, transportation, mining, etc.

### Special Welded Wire Mesh Rolls

It is mainly used in construction, animal fence, protective cover of machine, highway fence, sports ground fence, road fence, etc. It is can be used as reinforcing concrete.

### Light Welded Wire Mesh Rolls

It not only provides solutions to numerous problems, but also ensures consistent high quality. Rolls are made of wire mesh with wire diameter of 0.66MM to 2.00MM. There are many choices, such as, plastic coating, and so on.

### Heavy Welded Wire Mesh Rolls

It is more and more widely used in the industry especially in the field of security and construction of storehouse. It is easy to operate and use with other materials. This makes the welded wire mesh has multiple functions. So this kind of welded wire mesh can be used in all areas of the construction industry.
